Brandon Tsueda

Network Engineer | Cybersecurity Analyst | Business Intelligence & Analytics Professional

Louisville, Kentucky | (502) 676-8984 | brandon.tsueda@live.com | linkedin.com/in/brandontsueda | brandontsueda.com

PROFESSIONAL SUMMARY

Technology professional with experience spanning network operations, cybersecurity, enterprise support, and data-driven analysis. Practical background in monitoring large-scale environments, resolving technical incidents, documenting operational trends, and supporting business decision-making through reporting and analysis. Complements a strong technical foundation with growing expertise in Business Intelligence, including Power BI, advanced Excel, data visualization, dashboard design, and analytical problem solving.

CORE SKILLS

Business Intelligence & Analytics	Power BI, advanced Excel, dashboards, data visualization, KPI reporting, business reporting, trend analysis
Security & Tools	Nessus, Nmap, Wireshark, Metasploit, Burp Suite, OpenSSL, CyberChef, OWASP, IAM
Frameworks & Compliance	NIST 800-53 Rev. 5, NIST CSF, CMMC, PCI DSS, HIPAA, GDPR, MITRE ATT&CK
Networking	DNS, DHCP, VLANs, TCP/IP, VPNs, Active Directory, SSL/TLS, IPsec
Systems & Platforms	Linux, Windows Server, Windows 10/11, macOS, Azure, VMware, ESXi, VirtualBox, KVM
Automation & Scripting	Python, PowerShell, Bash, Ansible
Databases, Web & Development	MySQL, MongoDB, MariaDB, Apache, NGINX, HTML, CSS, JavaScript, C#, Visual Studio, VS Code, GitHub

PROFESSIONAL EXPERIENCE

Network Operations Center Engineer | Humana

Louisville, KY | April 2024 - Present

- Monitor enterprise network activity and system health across large-scale Windows and Linux environments to support 24/7 stability.
- Investigate alerts, analyze anomalies, and escalate incidents quickly to reduce disruption and improve response coordination.
- Resolve outage tickets and restore critical services with minimal impact to users and business operations.
- Use HP BSM, HP NNM, SolarWinds Orion, Dynatrace, ServiceNow, Prognosis, and BigPanda to monitor, document, and coordinate incident response.
- Interpret system and service trends to support faster issue resolution, improved communication, and improved operational visibility.
- Support an environment of 50,000+ servers, lead outage bridge communications, mentor interns and contractors, and assist with DNS and firewall changes.

Cybersecurity Project Consultant (Academic Role) | Full Sail University

Remote | January 2021 - Present

- Performed vulnerability scanning and penetration testing activities using tools such as Nessus and Metasploit in controlled academic environments.
- Authored technical and compliance documentation covering IAM, patch management, SDLC practices, and data retention requirements.
- Supported analytics-focused coursework involving descriptive analytics, predictive analytics, business intelligence concepts, and enterprise data management.
- Built and interpreted dashboards, reports, and visualizations using Power BI and Excel to communicate trends, patterns, and decision-support insights.
- Worked with structured datasets, reporting concepts, and business analysis techniques to strengthen practical data storytelling and analytical decision-making.

Global Inside Partner Development Manager | Microsoft

Remote | January 2022 - December 2023

- Supported strategic global alliances with partners including SAP, Bentley, and ESRI while collaborating with alliance directors and executive stakeholders.
- Managed SaaS, PaaS, and ERP pipeline activity valued at more than $700 million annually.
- Tracked partner engagement, business performance, and pipeline movement to support planning, reporting, and strategic growth initiatives.
- Improved internal processes that supported Azure revenue growth and partner engagement.

EDUCATION

- Master of Science in Business Intelligence | Full Sail University | Winter Park, FL
- Bachelor of Science in Cybersecurity | Full Sail University | Winter Park, FL
- Associate of Science in Information Technology | Full Sail University | Winter Park, FL

ANALYTICS & TECHNICAL HIGHLIGHTS

- Power BI dashboard creation and business reporting
- Advanced Microsoft Excel skills including formulas, organization, analysis, and reporting workflows
- Experience interpreting operational, technical, and business data to identify trends and support decision-making
- Strong written communication and presentation support for analytical findings, technical reporting, and documentation
